

Professional Team Building & Leadership Programs

Leadership Development Overview Winning the Hearts and Minds of your team!

Every organization, team, and relationship has its challenges and opportunities. These peaks and valleys will never completely go away. However, with an open mind, an extension of yourself, and an acceptance of sometimes painful feedback, we feel your relationships and journey can be improved. In leadership and team development, you never "arrive"! You can only hope to improve and you must first start with yourself.

Our Leadership Development program is based upon personal accountability and the impact of your words and actions on those around you. Several years ago we were introduced to a concept called "Servant Leadership" by our friends at Festival Foods. We have since been actively blending this leadership model into our every day thoughts and actions.

Your time at Badger is led by one of our team building experts. The program lasts 3 hours. This will include classroom time, team building challenges and feedback. There will also be some time left for fun because we truly believe "Fun Motivates". Feedback will be given throughout and after your program.

We will have your groups leader(s) fill out a questionnaire about your group ahead of time to help us identify your groups strengths and problem areas. This will help us better understand what issues you may be having. You tell us and we will then program your time here to address those issues and others.

Program Agenda

FOUNDATION - Servant Leadership Introduction & Discussion
60 minutes

FEEDBACK - Team Building Challenges (Focus on trust, communication, listening and actively working together to solve problems and reach goals)
45 minutes

(BREAK)
15 minutes

FRICION - Leadership Follow Up Discussion & Skills Inventory
60 minutes

Take- aways

At the end of the session, participants will better understand:

- How personal accountability "starts with looking in the mirror" - "be the change you want to see."
- How to be a better mom/dad, spouse, coach & teammate
- The huge difference between Power & Influence
- All participants will take a "Leadership Skills Inventory"
- That Leadership is all about Practice and Application
- The principles of servant leadership and how they relate and can be practiced on a daily basis.
- An understanding that you never arrive... leadership & relationship development is always unfinished business.
